WORK EXPERIENCE

South Dallas Workforce Training Coalition **Dallas, TX**
Product and Data Science Lead Intern *Oct 2025 – Jan 2026*

- Developed and automated Salesforce reporting workflows and built operational dashboards that eliminated 70% of manual reporting processes and improved operational efficiency by 40%
- Defined KPI frameworks for program performance tracking, aligning reporting cadence and metrics with leadership priorities and improving visibility into program outcomes by 20%
- Partnered with leadership to identify business challenges, gather requirements, develop hypotheses, evaluate operational feasibility, and prioritize enhancements that reduced correction cycles by 30%
- Analyzed user behavior using Mixpanel and Google Analytics to identify funnel drop-offs and optimize outreach strategies, contributing to a 25% reduction in participant attrition
- Delivered strategic insights on user adoption trends and campaign performance, enabling data-driven decision-making across marketing and operations teams and improving engagement by 10%

KNIME Inc. **Austin, TX**
AI Product Intern *Jun 2025 – Aug 2025*

- Scoped and delivered an autonomous multi-agent Inventory Manager for supply chain automation, translating stakeholder requirements into system design and building a working prototype that reduced manual fulfillment cycles by 40%
- Designed and deployed a multi-agent talent acquisition system using prompt engineering, model selection (GPT-4/Claude), and evaluation frameworks; reduced time-to-fill by 20% across pilot deployments
- Analyzed product performance metrics, adoption trends, and agent quality scores to inform optimization decisions and improve feature adoption across stakeholders
- Developed UML workflows, functional documentation, and implementation standards that ensured 99%+ data accuracy and prevented production rollbacks

First American **India**
Lead Business Analyst / Business Analyst *Aug 2022 – Feb 2024*

- Led payment platform modernization by evaluating vendor vs. in-house solutions and presenting recommendations to leadership, driving adoption of an internal solution that reduced operational costs by 20%
- Directed requirements gathering for SaaS platform modernization, identified AWS and Redshift performance bottlenecks, and prioritized enhancements that reduced processing turnaround time by 70%
- Built Power BI dashboards, customer penetration reporting, and performance monitoring frameworks in Looker that accelerated executive decision-making by 60%
- Trained junior business analysts and led Agile delivery across product releases by coordinating 3 cross-functional teams, managing backlogs, and reducing sprint blockers by 35%
- Led UAT, beta testing, and user feedback analysis that improved feature adoption and increased customer satisfaction scores by 15%

Wipro Limited **India**
Business Analyst *Jun 2018 – Aug 2022*

- Led full SDLC execution across enterprise financial systems delivering 100% of projects on time through cross-functional stakeholder management
- Built SQL and Python-based analytical models to evaluate retention, enrollment, and churn trends, resolving reporting issues and reducing data errors by 35%
- Conducted root cause analysis and re-engineered legacy Excel reporting into SQL, ETL, and RPA workflows that reduced manual processing time by 30% and eliminated recurring reporting inefficiencies
