FNU ARSH

Interaction Designer / Design Technologist

Tempe, AZ | (623) 286-4253 | itsjustarsh@gmail.com | linkedin.com/in/arshux/ | arshdesignlab.framer.ai

EDUCATION

Arizona State University | **Master of Science in User Experience** | Tempe, AZ | May 2025

- **GPA: 4.00/4.00** | **Credentials:** Microsoft Fundamentals of UI/UX Design, CITI IRB Research Systems, Webflow 101.

BML Munjal University | **Bachelor of Technology in Computer Science** | Gurgaon, India | May 2023

- **GPA: 3.07/4.00** | **Frameworks:** Warwick Summer School UK (Communications & Marketing).

WORK EXPERIENCE

RELAYTO | **Design Internpreneur** | San Francisco, CA (Remote) | Sep 2025 – Present

- **Transformed 50+** documents into interactive high-fidelity prototypes, expanding massive scale engagement by **25%**.
- **Partnered with** multi-disciplinary design teams to build **20+** templates for streamlined engineering handoff.
- **Systematically scaled** interaction structures and disclosure flows, decreasing workflow overhead by **5** days per month.

Luxstone Texture | **Web Designer** | India | Aug 2024 – Dec 2024

- **Engineered** a responsive Wix Studio website via a custom Figma UI Kit and **10+** templates to establish digital presence.
- **Leveraged design systems** via Figma Auto Layout and variants, eliminating layout bugs across responsive breakpoints.
- **Achieved 100%** WCAG 2.1 compliance and expanded organic traffic by **40%** in the first quarter via optimized technical SEO.

Tata Consultancy Services & IBM | **Data Science & Systems Intern** | India | May 2021 – Jul 2023

- **Optimized** UI data density, expanded system baseline scalability by **50%** via Azure automated data flows.
- **Developed** real-time Sign Language model hitting **90%+** accuracy via custom CNN backend.
- **Programmed** validation loops via Python hashing libraries, running checksum verifications to purge duplicate data biases.

PROJECT EXPERIENCE

Cnema & Eudemonia Applications | **Interaction Designer & UX Researcher** | Figma, Framer

- **Led** feature scoping for streaming and wellness apps, using competitive data to isolate user discovery needs.
- **Designed** interactive multi-device high-fidelity prototypes in Figma to optimize information architecture.
- **Brought prototypes to life** on Framer, simulating dynamic states to test layouts based on iterative user feedback.
- **Executed** validation loops with 10 participants, demonstrating an **80%** task completion rate and a **60%** stress reduction.

SKILLS & INTERESTS

- **Technical & Engineering:** Python (Scikit-Learn, Keras, TensorFlow, Pandas, NumPy), SQL, Java, JavaScript, Azure, Microservices, Data Science Architecture, Hash Diagnostics, Checksum Verification, Algorithmic Automation.
- **Design & UX Methodologies:** Figma (Plugins, Auto Layout, Components, Variants, Variables), Adobe Creative Suite, Framer, Wix Studio, Design Thinking, Interaction Design, Fidelity Prototyping, User Research, WCAG 2.1 Compliance, Iterative Prototyping.
