EDUCATION

The Ohio State University **Columbus, OH**

Bachelor of Science in Computer Science *Graduation Date: May 2028*

- 3.7 GPA, Dean's List

WORK EXPERIENCE

The Ohio State University **Columbus, OH**

Software Engineering Teaching Assistant *Aug 2026 – Dec 2026*

- Selected as a Teaching Assistant for a full-stack web development course, mentoring 30+ students on JavaScript, Ruby on Rails, SQLite, Git, and software engineering best practices across the SDLC.
- Will reviewed 30+ code submissions per assignment, providing detailed code reviews on REST APIs, database design, scalable architecture, and maintainable software patterns.
- Will lead 3+ hours of weekly office hours, improving student debugging skills by diagnosing frontend and backend issues while reinforcing testing and performance optimization techniques.
- Will collaborate with faculty to improve grading rubrics and project specifications, creating more consistent evaluation standards across a 30+ student cohort.

PROJECT EXPERIENCE

LIFTRI **Columbus, OH**

Full Stack Engineer *Dec 2024 – Present*

- Built and launched a cross-platform fitness application supporting 50+ active users by developing scalable React Native and TypeScript features backed by cloud services.
- Improved AI-powered nutrition tracking to 92% accuracy by integrating OpenAI Vision and NLP APIs that transformed food photos into structured nutritional data.
- Designed an offline-first synchronization architecture using PowerSync, PostgreSQL, and Supabase to improve application reliability across unstable network conditions.
- Reduced third-party API requests by 80% through performance optimization techniques including debounced search and locality-based caching.
- Strengthened application security by migrating API credentials to authenticated REST endpoints using JWT validation, eliminating client-side credential exposure.

UFC Fight Predictor **Columbus, OH**

Machine Learning Engineer *Nov 2025 – Present*

- Developed an end-to-end machine learning application using Python and FastAPI that serves real-time fight predictions through production-ready REST APIs.
- Improved model performance to 76% prediction accuracy and 0.84 ROC-AUC by engineering features and training an optimized XGBoost classifier.
- Built reproducible preprocessing pipelines with Pandas and Scikit-learn using temporal train/test validation, preventing data leakage during model evaluation.
- Automated CI/CD workflows using GitHub Actions to retrain, redeploy, and maintain production models without manual intervention.

OSU Grader Portal **Columbus, OH**

Software Engineer *Jan 2026 – Present*

- Led a team of five engineers using Agile methodologies to develop a grader hiring SaaS platform with Ruby on Rails and SQLite.
- Designed scalable system architecture, relational database schemas, and application workflows that streamlined feature development across the engineering team.

LEADERSHIP EXPERIENCE

Software Development Club **Columbus, OH**

Software Engineering Project Lead *Aug 2025 – Present*

- Led an Agile team of 10+ developers to build a roommate matching platform using Next.js and Supabase, coordinating sprint execution and feature delivery.

Triangle STEM Fraternity **Columbus, OH**

New Member Educator *Dec 2025 – Present*

- Redesigned the onboarding curriculum for 13 new members, improving engagement while preserving instructional quality.
- Achieved a 100% completion rate while supporting an average cohort GPA of 3.7.

SKILLS & CERTIFICATIONS

Skills/Tools: Java, Python, JavaScript, TypeScript, SQL, C, Ruby, HTML, CSS, React, React Native, Next.js, Node.js, FastAPI, Spring Boot, Pandas, Scikit-learn, XGBoost, PostgreSQL, SQLite, Expo, AWS, Supabase, Git, GitHub Actions, Linux, CI/CD.

Certifications: AWS Certified Cloud Practitioner, AWS Certified AI Practitioner**,** Claude Certified Architect - Foundations
