# Anjali Jindal

San Jose, CA | +1 408-643-3344 | anjali.jindal027@gmail.com | LinkedIn

## EDUCATION

**University of California, Santa Cruz** — **Santa Cruz, CA**
*B.A. Computer Science* — *June 2024*
- Honors: Dean's List, Presidential Award, NSCS, Project Management Certificate of Achievement

## WORK EXPERIENCE

**Amazon Web Services (AWS)** — **Seattle, CA**
*Solutions Architect Intern* — *May 2023 - June 2023*
- Advised mock enterprise SaaS clients on cloud architecture decisions with the end goal of improving system scalability and reducing costs through tailored AWS solutions
- Translated simulated business requirements into technical recommendations, presenting solutions to cross-functional stakeholders and incorporating feedback to strengthen stakeholder alignment
- Worked on goal to accelerate client onboarding and implementation timelines by developing architecture diagrams and leading solution walkthroughs

**UC Santa Cruz CUIP** — **Santa Cruz, CA**
*Project Coordinator & Peer Review Board Member* — *June 2022 - June 2024*
- Coordinated cross-functional stakeholders across campus departments to execute a university-wide student engagement initiative
- Managed end-to-end logistics, driving participation & alignment ensuring on-time completion of board proceedings and program deliverables
- Streamlined documentation and tracking systems for 10–25 student conduct cases, improving process efficiency and ensuring consistent case resolution workflows
- Tracked KPIs (participation, outcomes) using structured sign-in and monitoring processes, generating insights that informed program planning for student initiatives
- Improved accountability and follow-through by implementing structured workflows for case documentation, proposals, and action items across student programs

**European Wax Center** — **San Jose, CA**
*Guest Sales Associate* — *April 2021 - August 2022*
- Delivered high-quality customer experiences across 84 client interactions/week, managing the full end-to-end client lifecycle from inquiry and onboarding through scheduling and service guidance
- Exceeded formal sales targets through consultative selling and personalized service recommendations, driving membership and product revenue growth
- Managed high-volume client communications across in-person and phone channels, ensuring every guest received timely, accurate information and a seamless customer experience
- Identified customer needs and resolved service issues including booking errors and guest concerns, enhancing overall client satisfaction and contributing to repeat bookings and retention
- Leveraged CRM tools (Zenoti) to track visit frequency and client engagement data, driving consultative membership sales conversations and supporting retention efforts

## PROJECT EXPERIENCE

*StorySell — AI Brand & Marketing Assistant*
- Built an AI-powered web application that guides small business owners through brand discovery and generates tailored marketing content using Claude API
- Designed conversation flow, brand identity framework, and prompt engineering to generate Instagram captions, product descriptions, and campaign ideas

*Bird Watching Web Application*
- Developed statistics feature for team-built prototype allowing users to search bird species and view sighting frequency and date history from pre-loaded sample data
