WORK EXPERIENCE

TETHER **Remote**

Founder & Product Designer *November 2025–Present*

- Led end-to-end design and App Store release of a consumer mental-health app, delivering approximately 60 screens, 6 core flows, and 10 features in 4 months.
- Owned research, product strategy, UX/UI, testing, and release management, translating developer-ready Figma specifications into a functional mobile product.
- Designed privacy-conscious behavioral logic and contextual AI moderation, balancing personalization, safety, autonomy, and minimal data collection for vulnerable users.
- Recruited 14 Android beta users and secured multiple App Store downloads shortly after launch, converting early feedback into a prioritized V2 product backlog.
- Validated edge cases, error states, transitions, accessibility, and implementation quality through iterative design QA and functional testing.

PAYLOCITY **Remote**

Digital Engagement Specialist / Account Manager *July 2021–March 2026*

- Designed a consequence-forward open-enrollment experience that drove 98% benefit-election completion versus a 20% baseline and became the recurring standard for irreversible actions.
- Rebuilt a timecard walkthrough using QA data, Pendo analytics, and heat maps, increasing click-through rate from 5% to 95% within approximately 3 weeks.
- Generated $1.2M in revenue within 2 months by leading an A/B test that improved messaging performance by 20% after repositioning content for the platform's majority employee audience.
- Led intake through performance reporting across 4–5 concurrent initiatives, delivering 500+ reusable UX elements that improved consistency and reduced support interactions by 20%+.
- Proposed and launched a centralized payroll-deadline experience that recorded 5,000 uses in its first hour and nearly eliminated related service interactions within 1 year.

KID COMMERCE **Remote**

Freelance UX Designer & Project Manager *November 2022–September 2023*

- Led zero-to-one UX design for a dual-user financial-literacy platform spanning 6 primary parent and child flows during a 10-month startup engagement.
- Built the initial design system and information architecture for dashboards, learning pathways, gaming, and marketplace experiences in Adobe XD.
- Led research, discovery, and recurring alignment across 3 functions, translating founder input into product requirements and guiding scope through high-fidelity prototype delivery.

PROJECT EXPERIENCE

ONEPAY BANKING — UX Redesign **Orlando, FL**

UX Designer & Researcher

- Redesigned navigation and core banking workflows through interviews, personas, and usability testing, producing interactions rated 53% more intuitive.
