WORK EXPERIENCE

Crestace Consulting — **Loganville, Georgia**
Enterprise Transformation Consultant | Leadership Development — *Dec 2024 – Present*

- Standardized enterprise transformation playbooks across client engagements, reducing onboarding time by 35% while improving delivery consistency and organizational readiness.
- Developed organizational capability by coaching Scrum Masters, Product Owners, and leaders, increasing team effectiveness and reducing dependency on external transformation support by 65%.
- Partnered with senior stakeholders to assess current-state operations, align transformation roadmaps with business objectives, and improve executive readiness before implementation.
- Facilitated leadership workshops focused on governance, strategic planning, and change adoption, strengthening cross-functional alignment across 5 business units.
- Advised executives on organizational effectiveness initiatives, translating complex transformation strategies into practical execution plans that improved business outcomes.

Takeda Pharmaceuticals — **Boston, Massachusetts**
Senior Agilist | Enterprise Transformation & Organizational Change — *Nov 2022 – Oct 2024*

- Increased delivery throughput 30% while achieving 95% PI objective attainment by strengthening governance, dependency management, and enterprise planning across Agile Release Trains.
- Expanded enterprise transformation adoption by designing the Virtual Agile Bar, providing coaching and organizational support to 10,000+ employees while increasing engagement with the Agile Transformation Office.
- Improved organizational change adoption by publishing enterprise communications twice weekly, increasing awareness of transformation services and leadership engagement across the business.
- Designed onboarding frameworks, coaching playbooks, and capability-building programs that standardized organizational learning and accelerated transformation readiness across multiple business functions.
- Partnered with executive leaders to establish OKRs, KPIs, governance practices, and organizational change strategies that improved executive decision-making and business alignment.

Rego Consulting | Mayo Clinic | SPOK Insurance — **Centerville, Utah**
Enterprise Agile Coach | Business Transformation Consultant — *Jan 2023 – Nov 2024*

- Reduced delivery rework 75% by conducting organizational assessments, redesigning planning processes, and strengthening business process governance across healthcare and insurance transformations.
- Led a six-month enterprise transformation for 70 employees across six cross-functional teams, improving delivery predictability 35–40% while enabling the organization's first enterprise planning event and expanding portfolio visibility from two weeks to 8–10 weeks.
- Redesigned executive stakeholder engagement, increasing participation in business review meetings to approximately 80% by shifting discussions from technical updates to business outcomes and strategic priorities.

- Strengthened organizational effectiveness by implementing RACI governance, clarifying decision rights, improving accountability, and increasing collaboration across Product, Engineering, QA, and executive leadership.
- Built enterprise leadership capability by coaching 1 Release Train Engineer, 6 Scrum Masters, and 6 Product Owners, enabling independent facilitation, stronger governance, and improved planning quality.

TEKsystems | U.S. Bank **Minneapolis, Minnesota**
Senior Scrum Master *Nov 2021 – Oct 2022*

- Improved cross-functional collaboration 50% by designing scalable operating models, establishing governance structures, and aligning Product, Engineering, Sales, Marketing, and Finance around shared business priorities.
- Increased executive confidence in delivery by facilitating leadership planning sessions, improving organizational visibility, and strengthening enterprise governance.
- Improved planning quality by 80% through redesigning backlog management, prioritization frameworks, and portfolio planning processes that aligned technology execution with business strategy.
- Partnered with Sales and Marketing leadership during enterprise transformation, improving strategic alignment, decision-making, and organizational readiness for scaled delivery.

Capstone Publishers **Edina, Minnesota**
Scrum Master / Project Manager | Enterprise Transformation Lead *Oct 2019 – Nov 2021*

- Led the organization's enterprise transformation, establishing governance, organizational change practices, and a Lean-Agile Center of Excellence that enabled sustainable business transformation.
- Built organizational capability by recommending Agile certification for 10 leaders (4 Product Owners and 6 Project Managers), all of whom successfully completed training while strengthening long-term leadership development.
- Created and led the organization's Community of Practice, increasing employee engagement approximately 75% while fostering continuous learning and enterprise knowledge sharing.
- Influenced executive decision-making by analyzing organizational engagement data and redesigning planning cadences, resulting in stronger participation, improved collaboration, and more effective operating rhythms.
- Developed product leadership capability through coaching on strategic roadmapping, Lean Portfolio Management, prioritization, and portfolio governance, improving alignment between business strategy and execution.

Trendship **Remote (New York)**
Project Coordinator *Feb 2017 – Feb 2019*

- Introduced continuous improvement practices that improved delivery coordination and organizational collaboration across multiple concurrent initiatives.
- Improved stakeholder alignment by facilitating planning sessions, retrospectives, and cross-functional communication that increased delivery transparency by 70%.
- Supported organizational process improvements by standardizing project coordination activities, reducing execution delays by 90%.
