Chaston Anton Matta

Austin, TX | 512-751-3232 | chastonmatta@gmail.com | linkedin.com/in/chastonmatta/

PROFESSIONAL SUMMARY

Performance-driven Portfolio Manager and Trading Data Analyst with 10+ years of deep expertise executing multi-asset strategies across equities, options, futures, and forex markets. Proven track record of applying a top-down macro-to-bottom-up trading process to convert raw market and fundamental data into structured, repeatable trade ideas. Expert in leveraging advanced Excel workflows for data gathering, cleaning, sorting, and validation to eliminate portfolio drift and enforce risk mitigation. Transitioning a strong foundation of self-directed execution, technical data validation, and process optimization into a high-impact corporate role as a Trading Data Analyst, Market Analyst, or Capital Markets Operations Analyst.

WORK EXPERIENCE

Mattafied Investment Group **Austin, TX**
Founder & Portfolio Operations Strategist *Jan 2015 - Present*

- Apply a systematic top-down-to-bottom-up trading process (macroeconomic regime identification, sector-level thesis development, and bottom-up fundamental screening including P/E ratio, earnings growth, and revenue multiples) to structure trade-idea generation.
- Architect custom distribution-of-returns data templates in Excel utilizing advanced statistical formulas and automated validation checks to guarantee data integrity, scaling data ingestion across historical datasets to save 10+ hours of manual analysis per week.
- Engineer centralized performance-analytics dashboards tracking win-rates, reward-to-risk outcomes, and expectancy across multi-asset setups, driving data-informed strategy refinements.
- Implement disciplined risk mitigation frameworks utilizing fixed-fractional capital allocation, invalidation-based stop placement, and risk-defined options structures across CME futures and equity markets.
- Execute model implementation workflows that synthesize technical market-structure analysis with leading macroeconomic indicators, successfully eliminating structural portfolio drift.

Independent Deal Sourcing Operations **Austin, TX**
Financial Research & Deal Flow Analyst *Jul 2019 - Sep 2021*

- Spearheaded systematic outbound origination campaigns targeting privately held sub-$1M EBITDA service businesses, averaging 50 to 100 daily cross-channel touches to build an active M&A pipeline.
- Qualified prospective acquisition targets against rigorous board-defined criteria, evaluating local market dynamics and operational metrics to identify consolidation and private equity resale opportunities.
- Constructed standardized financial profiles and buyer/lender matrices via structured CRM pipeline workflows, accelerating internal transaction lifecycle reviews and strategic fit assessments.
- Authored comprehensive, board-ready investment briefs utilizing internal templates to document asset financial health, EBITDA bands, and risk factors for final executive review.

Independent Trading Groups & Networks **Austin, TX**
Community & Education Lead *Mar 2016 - May 2019*

- Expanded a cross-functional trading education network to 2,000+ members, collaborating with a 3-person staff to design, deliver, and standardize market reporting frameworks covering complex macroeconomic trends and market structure shifts.
- Accelerated digital marketing outreach workflows through advanced CRM segmentation and engagement tagging, achieving 40% to 50% email open rates while driving consistent, organic community growth.
