WORK EXPERIENCE

Product Manager | *Sky Acres (USG), Remote, GA* *May 2024-Present*

- Lead end-to-end lifecycle for data-driven tools (discovery to PRDs/user stories → launch), improving adoption +25 pp and satisfaction +15 pts.
- Convert insights from 30+ discovery sessions into PRDs, acceptance criteria, and test plans, accelerating delivery by 30% and reducing rework 20%.
- Partner with engineering/marketing/compliance to prioritize roadmaps and integrations, lowering churn risk and supporting retention initiatives (e.g., segmentation-driven features).
- Apply customer signals/segments to scope features for churn prediction and retention strategies, lifting weekly active use 18% or reducing churn 15%.
- Prioritize a quarterly roadmap using 30+ discovery sessions and impact scoring (RICE/MoSCoW), cutting cycle time by 25% and increasing feature adoption by 20 percentage points.

Product Analyst Intern | *Eli Lilly, Indianapolis, IN* *May 2023-Aug 2023*

- Streamlined workflows for customer-facing products, reducing turnaround time 40% and improving time-to-insight for stakeholders.
- Developed predictive analytics pipelines on AWS (S3/EC2/Lambda) to automate ingestion/processing in a regulated environment, cutting manual effort 70%.
- Defined product KPIs and instrumented dashboards (SQL + Tableau) to monitor usage funnels, reducing time-to-insight by 45% and informing 15 roadmaps decisions per quarter.

Product Management Intern | *Grus & Grade Private Limited, Hyderabad, India* *May 2022-Jul 2023*

- Prioritized features using customer-lifecycle data and 70+ user interviews, driving a 25% conversion lift in 3 months and improving retention.
- Launched automated engagement workflows and aligned GTM content with value props, sustaining +25% conversion and reducing drop-offs 40%.
- Ran A/B tests on onboarding copy and step order, raising activation by 20 percentage points and reducing drop-off at step 1 by 30%.

Co- Founder – Product Lead | *SquarExchange, Remote, USA* *May 2021-April 2023*

- Defined MVP roadmap via user research (40+ interviews) and scaled the product to 1,000+ users, raising onboarding completion 30% by streamlining KYC, wallet, and trading flows.
- Analyzed retention cohorts and shipped a nudge/notification cadence, lifting week-4 retention by 25% and reducing support tickets 40%.
